
How can I post a video?

Posted by tubby - 2008/03/25 22:35

We support te following file formats:

- .flv (the recommended format for video streaming)
- .swf
- .mov (second best recommended format for video streaming)
- .mp4 (supports both video and audio as a format)
- .mp4 (supports both video and audio as a format)
- .mp4 (supports both video and audio as a format)
- .mp4 (supports both video and audio as a format)
- .wmv (.asf or .asx are not included since they are considered "dead" formats)
- .avi (utilizing any codec, this includes DivX)
- .mpg and .mpeg
- .rm and .ram (Real Media - supports both video and audio as a format)
- .mp3
- .wma

Enclosed is a document which explains how to post a video in this forum.
